Product data sheet

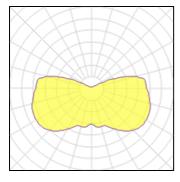

EVA III 9.751.1052.00 LEIPZIGER LEUCHTEN

IP 55

For medium light requirements, mounting height 4.50 - 6.00 m. - Impact-resistant beaded polycarbonate attachment, UV-stabilized -Aluminium reflector finished in special white paint for max. light reflection - Corrosion-resistant cast aluminium unit carrier, painted - All electrical components on a block - Adapter jack for connection -Available in any RAL- or DB -colour without surcharge - For concrete pole with flange plate made of hot galvanized steel Voltage: 230V 50Hz Protected to: IP 55 Protection class: I/II Made to DIN VDE 0711

Light output 1

1 x Metal halide lamp Nominal lamp power 100 W LOR 83% 10000 lm ULOR Lamp flux 22% Luminous efficacy 73 lm/W Total flux 8342 lm CCT 3000 K Total power 115 W CRI 90

Mounting mode Pole top mounted Shape and measurements

Height: 17.72 in Diameter: 15.75 in

Electric

System power: 115 W

Protection

IP: 55
