## Product data sheet

ZIPLINE NARROW LED - 53W - SMARTSCAN - 4000K ZP16419

THORLUX LIGHTING

The Zipline is a self-contained pre-wired trunking and LED lighting system offering unparalleled flexibility in terms of lighting layout and scheme design. The Zipline combines architectural impact, longevity and supreme efficiency (128.6 LL/CW) providing the lighting designer with the perfect lighting solution for many building-wide applications. With five luminaire power options, broad, narrow and double asymmetric light distributions and a variety of accessories the Zipline is a truly versatile suspended or surface mounted lighting system.
