LOUIS POULSEN

Munkegaard Design : Arne Jacobsen Concept : The fixture emits diffuse and comfortable light directed downwards. The white opal glass disc provides an even illumination of the surface. The glass disc appears to hover below the ceiling, due to its suspended placement, allowing light to slip out through the gap between the disc and the fixture. This results in a different visual experience. Finish : High lustre chrome plated or satin chrome-plated. White opal glass. Material : Diffuser: White opal glass. Trim ring: Stainless steel.
